

Colitis Conundrum

Can this illness drive me any more crazy
What to say when everyone asks "How are you?"
Do they really want to know
I don't think so
It is too long
Too long I say for someone to have to deal
Day in - Day out
Never when it will strike
As much as I ma better than before
It is still not FINE
FINE - when was the last time I was FINE
So sick of popping pills -
Acid reflux - oh the pain
Colitis - watching bloody shit go down the drain
Cancer seems like such a breeze
At a time when the other ailments feel like
Every I'm going to seize!
