

Putting Up with Life

Rain or shine I'll be there
Putting up with life
As if I have a choice
Suicide not in my thoughts, that's
CRAZY
More like stopping the world and
Jump off
Just take a break, press pause
Your mind gets boggled and tied
In knots
Sometimes the only solution is a
SCREAM
Wow if you just dissolve problems
With tears
But ifs are just ifs and no one
Wants to listen to them, if they
Were definite, well then that would
Be different
What is a human to do just
Go on living to the best that
You can do
Remember life is precious no matter
How painful it feels
